Middlefield selectmen discuss Powder Ridge and more

Thirsty dogs

Eagle Scout Tyler Sibley appeared before the selectmen to request permission to dig a shallow well and install a hand pump at the dog park on Lake Shore Drive to provide water for dogs only. The selectmen unanimously approved the installation in concept, providing sanitarian Lee Vito was agreeable and all necessary permits and paper work filed. Sibley noted that a balance over \$538 in the dog park account, all accumulated through donations, would be enough to complete the job.

"The dog park has been open a year, and dozens of dogs use it every week," Sibley reported proudly.
